

Global Solar Glass Provider

Glass For Energy

About AV Solar

Worldwide know-how in Solar Glass

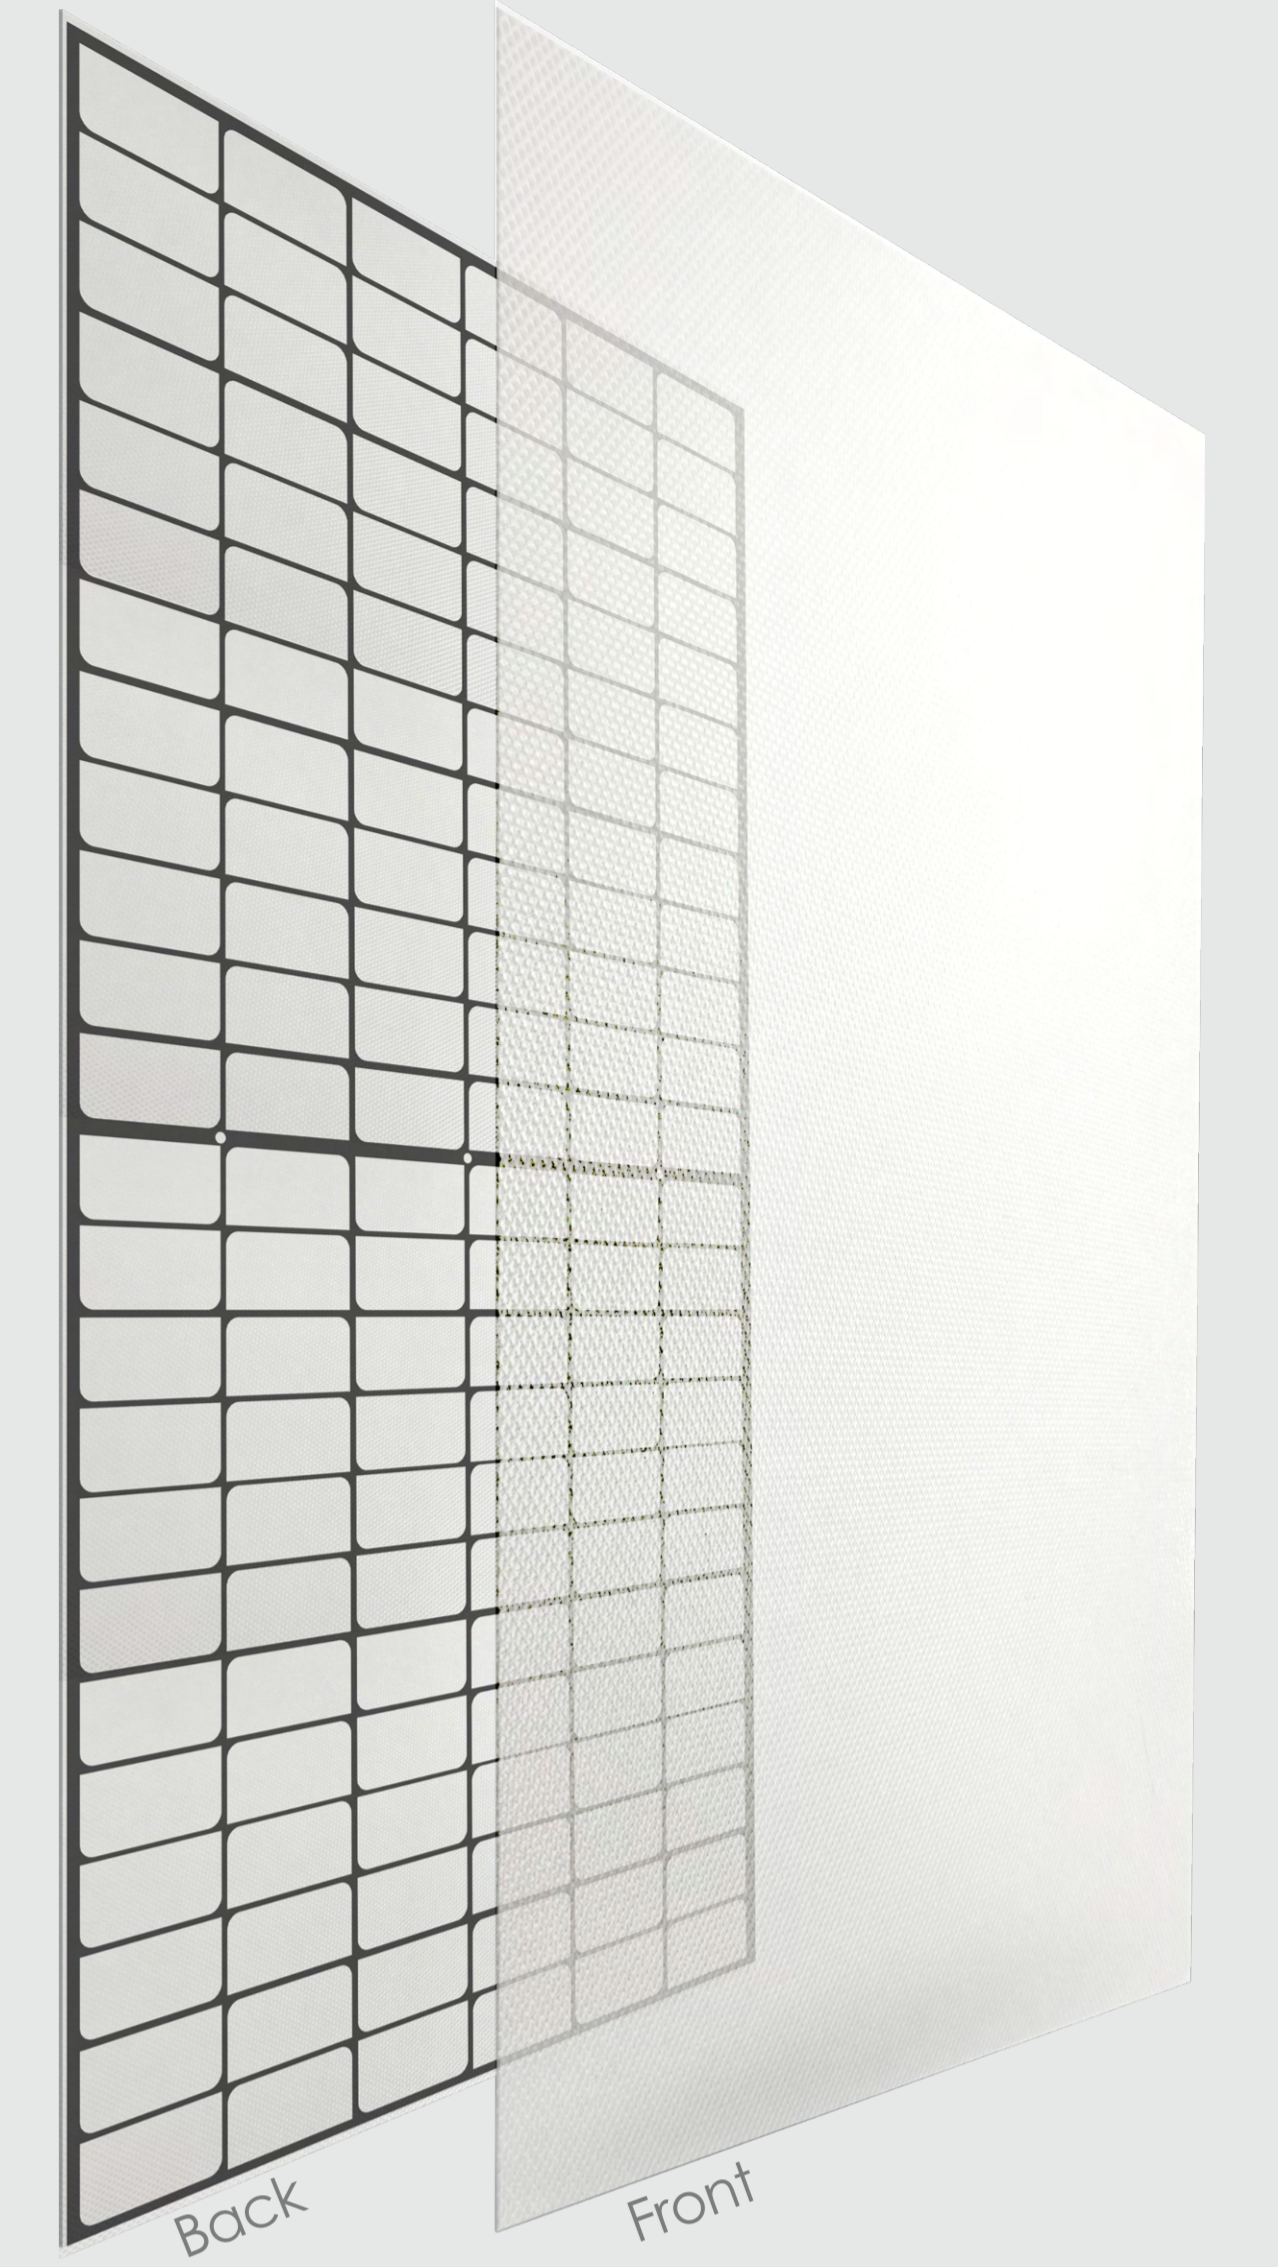

AV Solar has a long history as a key player in the solar glass business. As part of the world leader in glass production, AV benefits from the latest glass technologies to make renewable energy a success.

The company operates with plants in Asia and Middle East with total capacity of 2000 T/Day, and produces glass solutions for three main solar applications: Photovoltaic Modules, Thermal Collectors and Concentrating Solar Mirrors.

It aims for the highest production standards for increased performance and works through a worldwide network to serve its customers.

Its slogan "Glass For Energy" says it all.

High performance Tempered Low-iron Solar Glass

Product

AV Lite

AV Lite S

AV Sun

Type

Patterned glass
Prismatic / Matt

Patterned glass
Matt / Matt

Extra clear float glass

Thickness

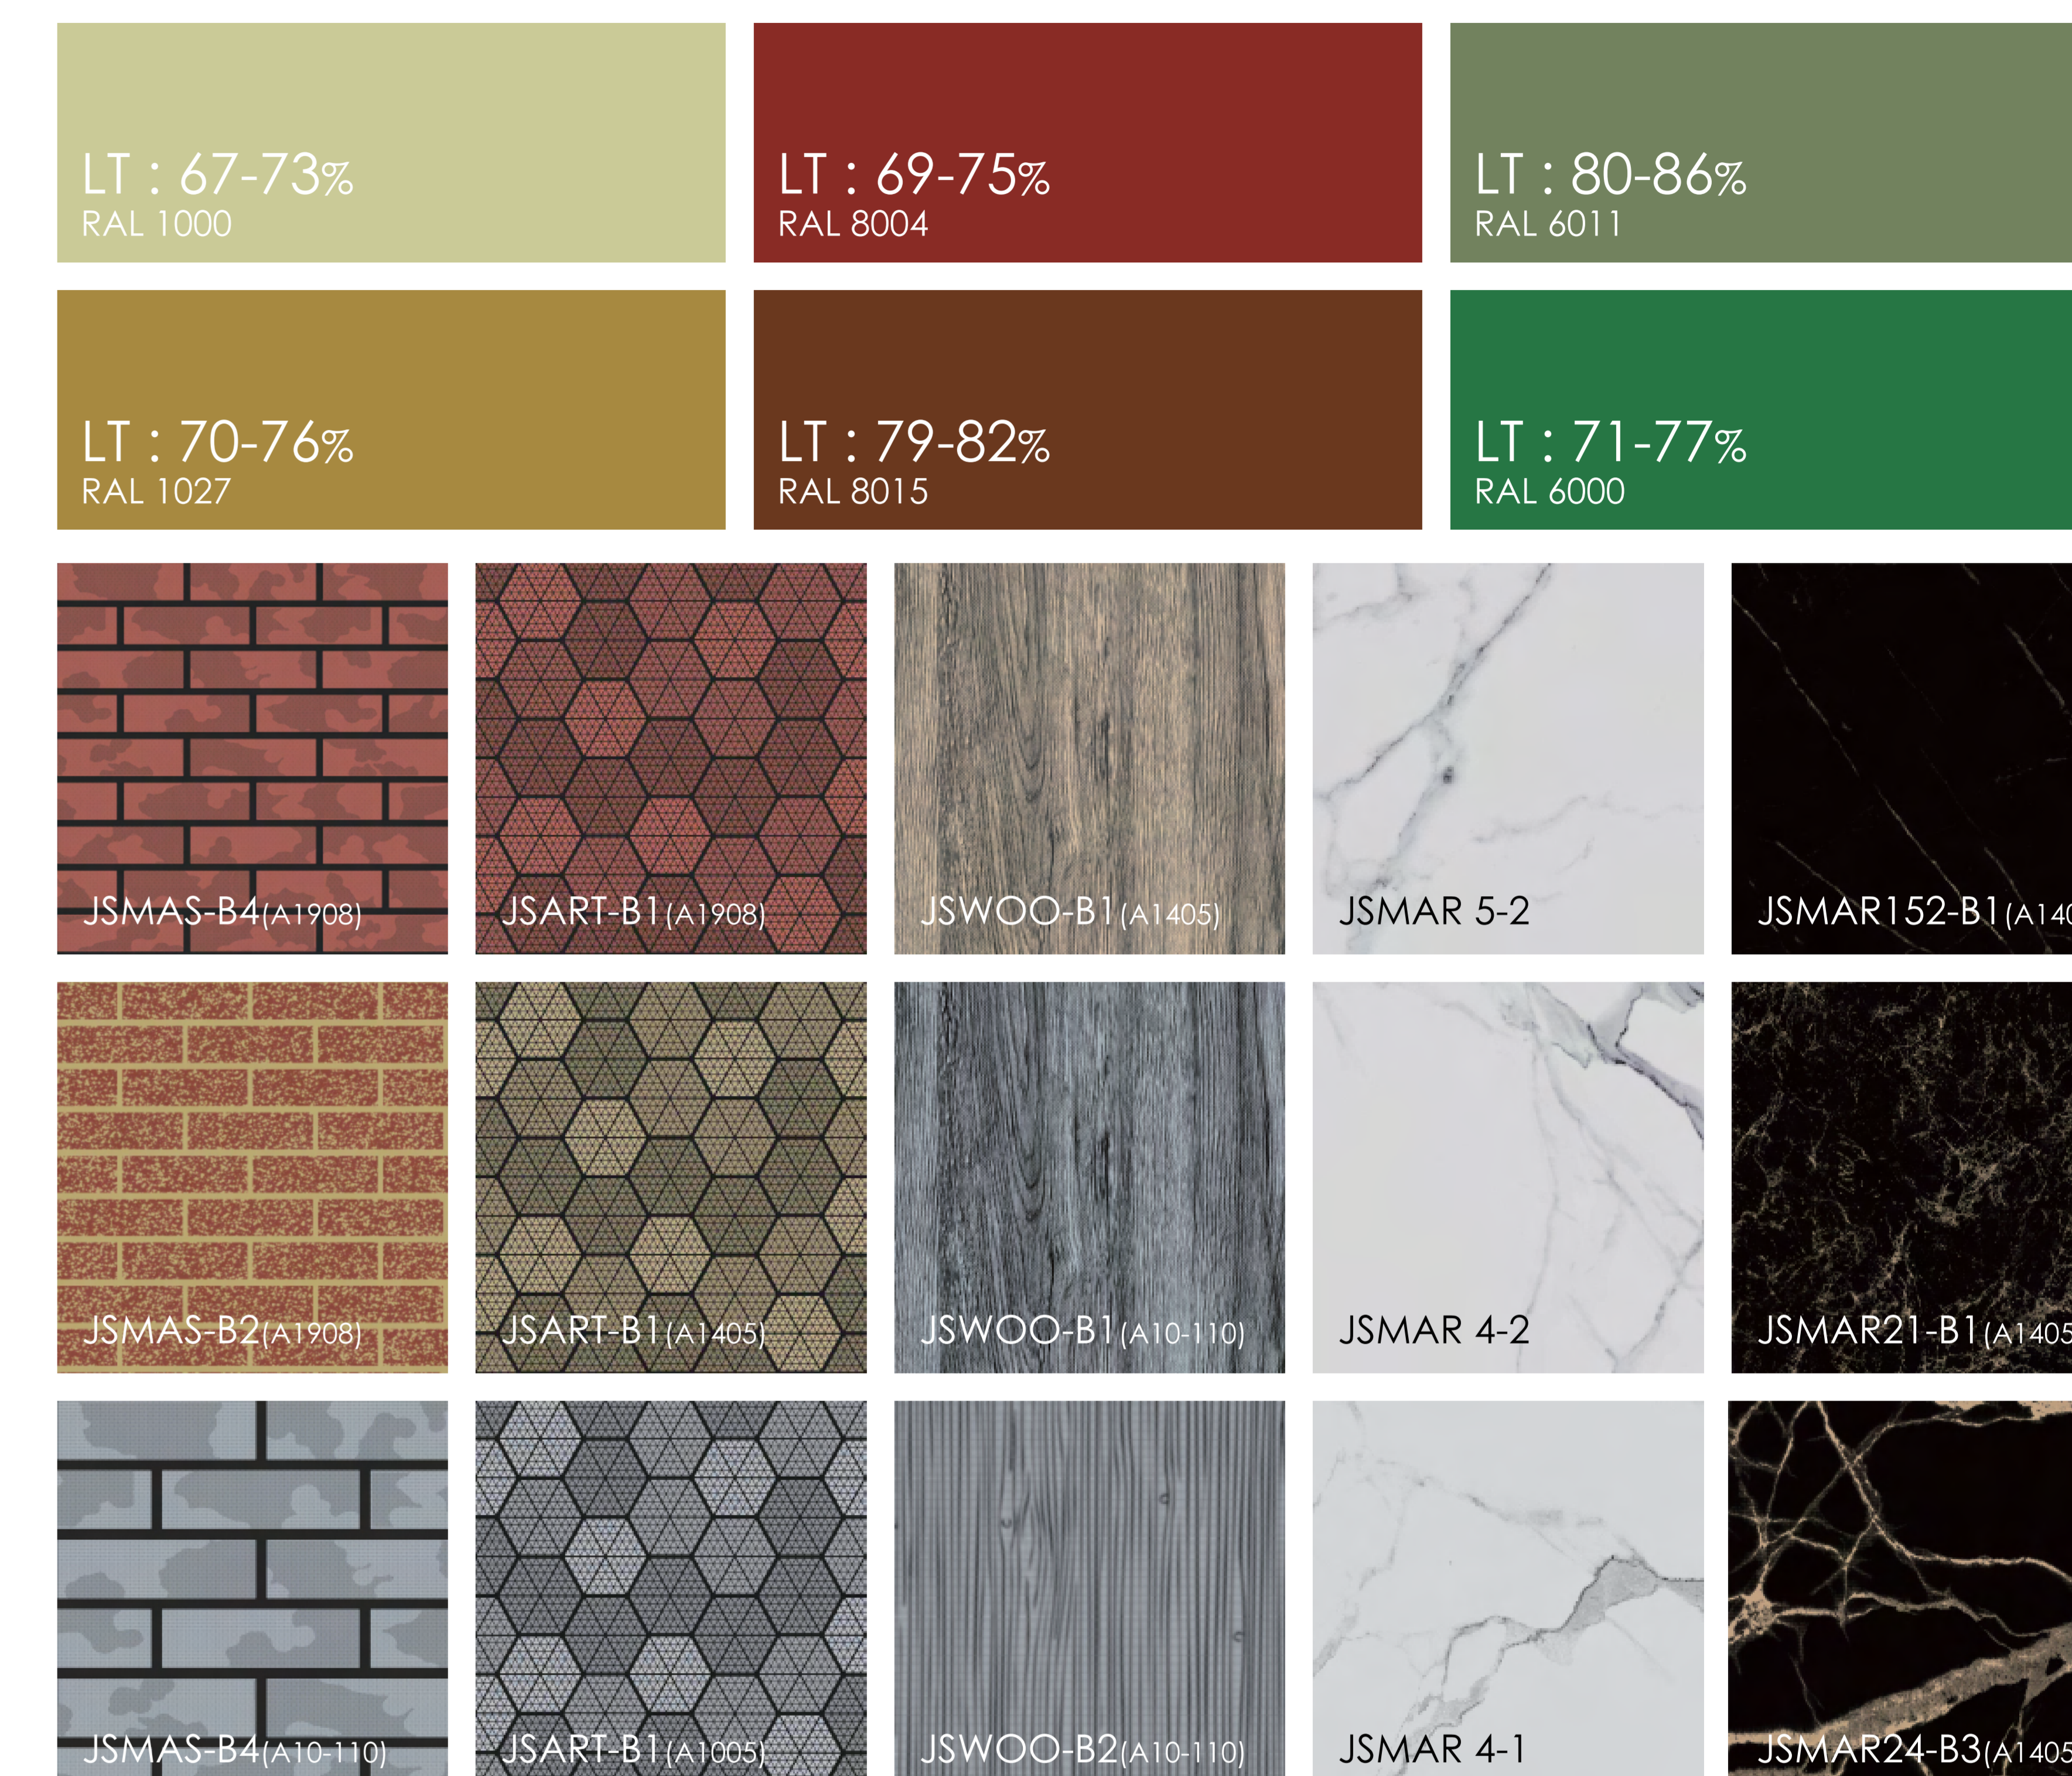

1.6mm - 2.0mm - 3.2mm

Max Size

1320 x 2500mm

Colored Solar Glass for BIPV

Make powerful & design BIPV module with Kolormax

Kolormax is solar glass made with an advanced painting technology designed specifically for low-iron glass used in photovoltaic and solar thermal applications.

Product	Color	Dimension	LT
Av Lite		1320 x 2500 _{mm}	Up to 82%
Av Lite S			

Combine Power & Design.
